

KNOW YOUR CROSSWALKS

What is a crosswalk?

A crosswalk is an extension of the road, sidewalk, curb or edge of the shoulder at an intersection for pedestrians to cross. Crosswalks may be either marked or unmarked.

THE MORE YOU KNOW

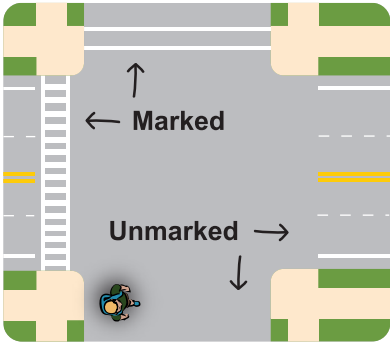

DRIVERS: Penalty for violating Florida's pedestrian traffic safety laws is a minimum \$164 citation and 3 points on your license. (*Fla. Stat. § 316.130*)

PEDESTRIANS: Crossing elsewhere could put pedestrians at higher risk.

KNOW YOUR CROSSWALKS

4 TYPES OF CROSSWALKS

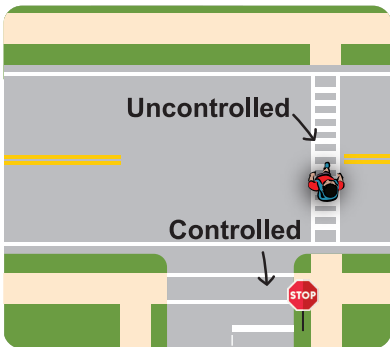

Marked vs. Unmarked

Marked crosswalks are the crosswalks most familiar to drivers and pedestrians. They are the portion of the road outlined by painted markings or a different texture of concrete or pavers.

Unmarked crosswalks are the implied, invisible crosswalks that legally exist at any corner.

Uncontrolled vs. Controlled

Uncontrolled crosswalks do not explicitly force cars to stop. They may have a safety feature such as yield to pedestrian signage.

Controlled crosswalks have a traffic signal or STOP sign.
